I am 15 years old and live in Malmö. I attend a primary school in Malmö and describe myself as a social and responsible person who also works well independently. I am interested in technology and enjoy working with web development in my spare time. I compete in swimming and play golf, and enjoy training. I also have a dog and like being around animals. Previously, I did a two-week internship at ICA where I helped with different tasks in the store, such as restocking items, facing shelves and helping customers.

My hobbies are animals, web development, swimming, golf, traveling and spending time with friends. I have a dog and enjoy being around animals. In my spare time I also work with web development, for example creating and designing websites. I also compete in swimming and play golf, which I find both fun and rewarding.

I completed a two-week internship at ICA and got to try many different tasks in the store. I stocked shelves, arranged products so the store looked neat, helped at the checkout, sorted and unpacked deliveries in the stockroom, and helped customers find products. I also helped keep the store clean, tidy and organized.

Kind regards,

Ivan Ristić Hofrén
